**Track Your  
Water Usage with  
Eye on Water**

The same innovative technology that allows us to read your meter from our main office also allows you to view and **track your water consumption on a monthly, weekly, daily, and even an hourly basis**.

Most importantly, **you can set up 'leak' alert notifications** – which could save you hundreds of dollars, and it helps you conserve a most precious resource in Colorado...water!

To create an account, you will need your email address and your 10-digit account number from your water bill, found in the upper left corner of the statement.
